# Discover. Analyse. Innovate.
## The future of AI-powered patent analysis

Octimine's smart search technology lets you find relevant patents and set up alerts **easier than ever.**

Strengthen your innovation to stay ahead of the curve.

Experience Octimine

Intuitive

Designed with simplicity in mind, Octimine offers a user-friendly interface that R&D professionals can navigate with ease. Enjoy convenience without sacrificing depth or functionality.

Intelligent

Spend less time on searching and more time on finding. Octimine's smart search technology simplifies the complex task of finding relevant patents. Grasp results quickly with AI-generated summaries.

AI-powered automation

Leverage our AI-driven search tool for accurate results in minutes. Stay updated with automated alerts on patent publications and legal status changes in your technology space.

Fully interactive

Turn information into insights. Dive into visualizations of your data and interact with analytics. Octimine lets you spot trends, tag documents, share and collaborate to fit your workflow.

Team empowerment

Effortlessly enhance cooperation. When you can highlight, comment, assign tasks and trade insights on-platform, the whole team benefits.

Inherently secure

Octimine has been developed to prioritize security. Your data is encrypted to industry standards and safely stored within the European Union.
