

DIAMS U

Our **out-of-the box** software for
Intellectual Property Management

- ✓ Easy to install
- ✓ Ready to use at lightening speed
- ✓ All essentials for efficient IP management

Managing Intellectual Property rights digitally

As organizations develop new technologies and expand their brands globally, their Intellectual Property (IP) portfolios grow in size and complexity.

IP portfolio managers have to stay on top of local legislation, communicate with external agents or law firms and coordinate internally on renewing IP rights, data maintenance and IP awareness.

It is essential for these managers to centralize all asset information and update portfolio data regularly to avoid docketing mistakes or missed deadlines. To carry out these crucial tasks effectively, they need an IP management system (IPMS) that is catered to the needs and scale of their company or organization.

A compact IP software tailored to the needs of small IP teams

DIAMS U is designed specifically for companies and organizations with smaller IP teams and portfolios. An efficient architecture focuses on the **digitalization** and **data maintenance** of IP rights.

With its intuitive user interface, DIAMS U is suitable for both **IP beginners** and **professionals**. Built-in features guide users through country-specific processes for filing and maintaining IP rights.

DIAMS U is ideal for IP owners and law firms who want to replace cumbersome patchworks of spreadsheets, calendars and paper-based processes. Centralize data to get a **better overview** and **avoid** the **risk of missed due dates**.

All your IP activity at a glance

A central digital space to securely store, manage and view your IP portfolio, related tasks and documents from anywhere.

Intuitive navigation and search features let you find anything in just a few clicks.

Due-date calculation based on the latest legislation eliminates the risk of missed deadlines.

Mass imports and updates reduce the time spent on **docketing** and **reporting**.

The screenshot displays the DIAMS U web application interface. At the top, there is a navigation bar with the DIAMS U logo and various menu options like 'My Page', 'Create', 'Edit', 'Search', 'Reporting', 'Import/Export', 'Administration', and 'Help'. Below this, a search bar and a 'Configuration' button are visible. The main content area shows a patent record for 'MOLECULAR003/EP-FR'. An orange callout box labeled 'Key info' points to a table of key information:

Information summary: DESIGNED ANKYRIN REPEAT DOMAINS WITH BINDING SPECIFICITY FOR SERUM ALBUMIN							
Patent type	Patent	Application Date	02-Apr-2015 No. 2015016250.2	Status	Granted	Inventors	Talitha BAKKER
Patent subtype		Grant Date	30-Mar-2022 No. 2015016250.2	Substatus		Registered Owners	MOLECULAR PARTNERS AG
Convention	European Patent Convention	Publication Date	No.	Priority Filing?	No	Attorneys	Vicky Kosti
Country	France	Expiration Date	02-Apr-2035	Priority Date	02-Apr-2015	Paralegals	
Annuity Due	30-Apr-2023						

Below the table, there is a 'Navigation' menu on the left with options like 'Main / Basics', 'Classes and description', 'Patent drawings', 'Actions and events', 'Companies', 'Contacts', 'Documents', 'Reference library', 'Related assets', 'Cost items', and 'Renewal Instructions'. An orange callout box labeled 'Quick access' points to a central form with fields for Title, Record ID, Country, Convention, Patent type, Patent subtype, Application Date, Grant Date, Status, and Substatus. To the right of this form, there are fields for Primary inventor, Primary registered owner, Entity size, Representative Agent, First publication, Second publication, Region, Primary attorney, and License of right? An orange callout box labeled 'Family tree' points to a section on the left showing a list of related patent entries under the heading 'Family (21)'. The entries include MOLECULAR003, MOLECULAR003/EP (EP), MOLECULAR003/EP-AT (AT), MOLECULAR003/EP-CH (CH), MOLECULAR003/EP-FR (FR), MOLECULAR003/EP-2 (EP), and MOLECULAR003/WO (WO).

Core IP features

Digital IP portfolio

Dedicated modules for patents, trademarks and designs.
Enhanced with family tree and world-map views, classifications, drawings and prior art libraries for each asset.

IP family creation wizards

Guided creation of IP rights for multiple jurisdictions and conventions at once. Generate new IP families in no time.

Due-date calculation

DIAMS U comes with an integrated country law engine, updating your records throughout prosecution and maintenance with accurate due dates to be observed.

Maintenance Service integration

Submit IP rights to our Dennemeyer Maintenance Service team to renew or abandon rights with a click. Once renewed, certificates and invoices are saved directly in your library.

PTO auditing

Compare your IP-right information with public PTO data to ensure that your assets are up to date. Our audit features allow you to align your records with public data in just a click.

Manage responsibilities

Set up cost centers and custom regions to reflect responsibilities by department. Furthermore, you can create your own multi-level categorizations to cluster assets as you want.

Search engine & reporting

DIAMS U has a powerful search engine, allowing you to perform cross-module searches and easily create report templates. You can share reports via email from directly within the software.

Matter management

Assets, cases or projects like litigations, oppositions, licensing contracts, joint venture projects and more. Matters have their own document libraries and task schedules and can be linked to any other asset stored in DIAMS U.

Document & file library

Easily drag and drop files into your assets document libraries. DIAMS U supports any file type (e.g., emails, office files, URLs...) and allows full text-search, enabling keyword searches even on PDF documents.

Events & actions

All assets on DIAMS U have their own task and events area providing you with a clear picture of past and upcoming actions.

Contacts & companies

Manage your partners, providers and clients in a dedicated module. Track address and responsibility changes and oversee your correspondence history by contact.

Cost items

Define custom cost items and track spent and received costs per IP right, matter or contact.

Consulting & support

Our IP software specialists combine **industry expertise** with detailed knowledge of our software solutions. We accompany you throughout your switch to DIAMS U, helping you with data migration and providing detailed training if needed.

The Dennemeyer advantage

In addition to free **IP country law updates**, we can support you with our extensive range of IP services. Whether you want to optimize your IP strategy, prepare investor rounds or joint ventures or **outsource** tasks such as docketing or renewal payments, we have the know-how and the experience to see your project to completion.

Ongoing service

Get started at lightning speed

- Install**
Download and install DIAMS U software on your PC
